WORK EXPERIENCE

Full-Stack Developer - Intern　　　Egmore, Chennai
WHY Global Services | MAR 2024

- Developed full-stack applications using MongoDB, Express.js, React.js, and Node.js.
- Created responsive user interfaces with React, ensuring cross-browser compatibility and a seamless user experience.
- Developed RESTful APIs using Node.js and Express.js, and integrated them with MongoDB databases.
- Utilized Git for version control and collaborated with team members through GitHub.

PROJECTS

GoDrive - Cab Booking Website

Description: Developed a full-stack web application for booking cabs, incorporating user authentication, real-time location tracking, and payment gateway integration.

Technologies Used: MongoDB, Express.js, React.js, Node.js

Key Features:
- Implemented secure user login and registration using JWT.
- Integrated Google Maps API for real-time location tracking of cabs
- Integrated Stripe API for secure online payments.

Buffer Bus - Ticket Booking

Description:
- Designed the user interface for a ticket booking system using HTML, CSS and Bootstrap
- Emphasized clean, responsive design for improved usability and accessibility.

Technologies used : HTML, CSS and Bootstrap
